

Measuring Instructions

Steps to Measure and Select a Window Look

- Step 1 Measure the Width and Length of your Window Opening** to get the Exterior Window Opening dimensions (fig.1). Remember to include the window frame in your measurement.
- Step 2 Choose Shutter Style:** Louver, Raised Panel, Louver-Panel, or Board & Batten.
- Step 3 Choose Shutter Type:** Standard or Custom. Note: Not all shutter styles are available Standard and Custom. See Pricing Manual.
- Step 4 Determine Shutter Width.** Note: See charts in Pricing Manual for available widths of Standard or Custom shutters.
- Step 5 Determine Shutter Length.*** Note: This number should be the same number as the window length determined in Step 1.
- Step 6 Choose a "TOP":** Header, Sunburst Kit, Sunburst, Elliptical Sunburst, Quarter Round Arch Top or Elliptical Arch Top.

*A note about shutter length.

Shutters are decorative and do not open and close. Because they are decorative, they don't have to match the window length exactly. They can be up to an inch short or long and will still look fine on a window.
